PROFILE

Passionate and experienced Data analyst with over 3 years of experience in software development. I enjoy working with all kinds of data sets and building things for the web. As an analyst my goal is to bring out hidden insights in data and make different data sets well optimized, scalable and efficient for various use cases.

WORK EXPERIENCE

Data Science Student, Berlin International University Of applied Science (Distant Learning) Berlin, Germany

Aug 2023 — Aug 2025

- Created and maintained automated dashboards and reports using tools such as Power BI, or Excel, to visualize key metrics and facilitate data-driven decision-making.
- Worked on Projects with large data sets which included data collection and preprocessing, extracting information and presenting it in form of Metrics, KPI's and Reports.
- Worked on Predictive analysis models, using statistical methods such as Logistic regression, clustering, factor analysis and time series.
- Communicated analytical insights to non-technical stakeholders through clear and concise reports and data visualizations.

Frontend Developer, Traffyclabel Ltd

London, United Kingdom

Aug 2021 — Jan 2023

- Led the complete development of an in-house affiliate system. A dashboard for seo analytics for affiliate managers.
- Redesigned an old website previously built with Java Primefaces library to use React.js.
- Oversaw the complete development cycle of 3 different frontend applications together with 2 other frontend developers.
- Maintained 3 of the already existing web applications and made changes requested from the Seo and marketing team to these sites.

SKILLS

Team Work

Data Presentation

JupyterLabs

IBM Watsons Studio

Anaconda Navigator

Programming

Microsoft Excel

Python / R

SQL

Power BI

Pandas / Numpy / Matplotlib

K-Nearest Neighbour

AWS EC2/ S3

Effective Communication

COMPTIA+/LPIC-1 Certification

CI/CD Pipeline

SCRUM/AGILE Methodology

Zenhub/Jira Project
Management

Linux Bash/Shell Scripting

LANGUAGES

English

Dutch

Russian

Ukrainian

Frontend Developer, Codeupset Ltd

Kyiv, Ukraine

Jan 2019 — Aug 2021

- Worked on over 5 react projects features using a wide range of libraries including, material-ui, chart.js, highchart.js , redux, material-react-table, rsuite components, swiper.js, gulp and lots more.
- Collaborated with a team of 4 developers to develop a payment feature for an ecommerce website which increased clients payment options.
- Worked jointly with the backend developers, assisted in the implementation of Java REST API's(spring boot) and used the data in designing the web application frontend and admin dashboard.
- Developed 4 Wordpress websites, starting from creating custom themes with php, translated the figma designs to code and used plugins like ACF(advanced custom fields), rank math seo, contact forms, and lots more.
- Executed several hosting of web applications on different platforms like AWS lightsail, digital ocean VPS, vercel, heroku, netlify,maintained the sites and carried out system administrative tasks like blacklisting suspicious IP addresses.

EDUCATION

Bachelors (BSc) In Data Science, Berlin
International University Of Applied Science

Berlin, Germany

Aug 2023 — Aug 2025

Bachelors (BSc) In Health Science, Sumy
State University

Sumy, Ukraine

Sep 2013 — Jul 2019

Senior School Certificate, Bright Stars Model
Secondary School

Uyo, Nigeria

Sep 2009 — Jul 2012

Junior School Certificate, Bright Future
College

Uyo, Nigeria

Sep 2006 — Jun 2009

INTERESTS

Gaming, Listening To Music,
Biking

Currently taking driving classes

INTERNSHIPS

Next.js / Natural Language Toolkit Intern, Meppel, Netherlands
TheHaus

Jul 2022 — Aug 2022

- Assisted with upgrading the web user interface from react.js to next.js.
- Completed the implementation of Figma design to react JSX.
- Coordinated the redesign of a website from webflow to next.js.

COURSES

IBM Data Science (Coursera), IBM

Sep 2023 — Feb 2024

Complete Data Science Course (Udemy), 365
Careers

Sep 2023 — Mar 2024

COMPTIA+/LPIC-1 Certification

RESIDENT PERMIT

Type 1 Temporary Resident Permit

Dec 2023 — Dec 2025
